# GN 155 SET

## 61 inch (155 cm) gooseneck microphone stand

### Description

The AKG Acoustics GN 155 SET 61 inch (155 cm) thin profile gooseneck microphone stand answers many needs in modern speech/vocal applications, from house of worship activities to TV and other on-stage entertainment. The matte gray finish and the application of the AKG Discreet series of capsules provide superior voice quality as well as an unobtrusive view to the audience. User-defined jumper settings in the base allow for a bass roll-off below 200 Hz and disengaging the red LED ring that is illuminated when phantom power is turned on. The heavy shock mount base provides a very low center of gravity for ultimate stability and noise free operation in all environments.

### Specifications

Nominal stand height:	61 inches (1550 cm)
Base diameter:	6.3 inches (16 cm)
Net/shipping weight:	5.2 lbs. (2.350 kg) / 5.7 lbs. (2.6 kg)
Capsules for direct mounting:	CK31, CK32, CK33, CK47, CK80
Lowpass filter:	engaged by jumpers in base
Red LED light ring:	engaged by jumpers in base
Output connector:	XLR-M receptacle

### Features

- Tall, thin profile for unobtrusive on-stage, house of worship, TV or live applications
- Provides mounting for capsules in the AKG Discreet series (CK 31, CK 32, CK 33, CK 47, CK 80)
- Heavy base provides low center of gravity for topple-free use
- User settings for low frequency roll-off and for LED indicating ring
- Two gooseneck sections for precise capsule placement or fast height adjustment
- Matte gray finish

# Architects and Engineers Specifications

The microphone stand shall be integral with no adjustable telescoping sections. Nominal height shall be no greater than 61 inches (1550 mm), and the body of the stand shall be no greater in diameter than .937 inches (24 mm). The base of the stand shall be no greater in diameter than 6.3 inches (160 mm), and the center of gravity of the stand shall be no higher than one-third the height of the stand. The stand shall directly accommodate the AKG Discreet

Acoustics microphone capsules, and the stand shall have two gooseneck sections for height adjustment and aiming of the microphone capsules. The base shall provide jumper wires for engaging an LED light ring, driven by phantom power, which indicates that the microphone is active. A 200 Hz high pass filter shall also be provided by jumper adjustment. The microphone stand shall be the AKG Acoustics Model GN 155 SET.

## Graphical Data

AKG is constantly improving and modifying its products, therefore, specifications are subject to change without notice.

### Limited Warranty

Valid only in the United States. AKG Acoustics warrants AKG products against defects in material or workmanship for a period of two years from the date of original purchase for use, and agrees to repair or, at our option, replace any defective unit without charge for either parts or labor. Important: This warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, the affixing of any attachment not provided with the product, loss of parts or connecting the product to any but the specified receptacles. This warranty is void unless service or repairs are performed by an authorized service center. No responsibility is assumed for any special, incidental

or consequential damages. However, the limitation of any right or remedy shall not be effective where such is prohibited or restricted by law. Simply take or ship your AKG product prepaid to our service department. Be sure to include your sales slip as proof of purchase date. (We will not repair transit damage under the no-charge terms of this warranty.) Note: No other warranty, written or oral is authorized by AKG Acoustics, Inc. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages or limitation on how long an implied warranty lasts, so the above exclusions and limitation may not apply to you.
