

K267 TIESTO

CIRCUM-AURAL CLOSED-BACK
REFERENCE DJ HEADPHONES

AKG
by HARMAN

ENGINEERED EXCELLENCE

The K267 TIESTO is the new flagship of AKG's professional headphones. It offers an over-ear, closed-back design with an oversized low resonance driver, providing a higher SPL, while still maintaining a matched low frequency bass response. Its user-adjustable bass boost keeps sound neutral or maximizes deeper sub-bass frequencies when prompted.

With anodized aluminium parts and superior workmanship, K267's sound quality raises the bar for the professional DJ, providing best performance without compromise. K267's Dual Plug-In feature allows the user to attach the cable to either side for maximum comfort. In addition, each set boasts 3D-Axis folding mechanism for optimum fitting and flat storage.

HIGHLIGHTS

- » **Switchable Bass Boost for studio work to large venues**
- » **Unique sound design for best sound and high attenuation**
- » **Anodized aluminium parts for heavy duty use**
- » **Powerful 50 mm driver with low resonance for high sound pressure levels even at low frequencies**
- » **New DualPlug system allows to attach the cable on both left and right side**

KEY SPECIFICATIONS

Capsule	dynamic
Design	Closed-back / over-ear (circum-aural)
Color	black / silver
Cable	1.2 – 5.5 m (4 – 18.0 ft) coiled, detachable cable
